THE YEAR IN REVIEW

Introduction

This Quarterly Report details some aspects of INDECOM's analysis of the fatal and non-fatal shooting incidents during 2017.

These incidents were caused by the Jamaican security forces, namely; the Jamaica Constabulary Force (JCF), Jamaica Defence Force (JDF) and Department of Corrections (DCS).

NB. This report does not address other security force related deaths e.g. road deaths, other assaults which result in death or deaths in custody. All such events are recorded by INDECOM but they do not form part of this analysis.

A central aim of INDECOM is to effect change in the JCF's excessive use of force, to encourage a change of its operating practices, and identify lessons for improvement, whereby the levels of reported abuse of rights and infringements upon the citizens right to life is lessened.

In 2013, fatal shootings reached 258, the years 2014 - 2016 saw a significant and welcome downturn in police related deaths, exceeding a 50% reduction, but fatal shootings in 2017 recorded a **51%** increase over 2016 and **66%** increase over 2015.

2017: THE YEAR IN REVIEW

In this report, the Commission reviews the patterns and practices of shooting incidents for 2017, with comparative analysis for previous years. Issues, relating to members of the security forces involved in, fatal and non-fatal shooting incidents; off duty shooting incidents; multiple fatality shooting incidents; no gun/no weapon shooting incidents; and planned operations are highlighted and assessed.

PART ONE: NEW COMPLAINTS

The Commission received 201 new complaints for the period. The top five categories of complaints include: 59 assaults; 51 discharge of a firearm; 38* fatal shooting incidents; 19 shooting injuries; and six cases of unprofessional conduct.

In relation to parishes with fatalities: Hanover, St. Elizabeth, Manchester, Portland, St. Ann and St. Thomas had no fatalities for the period. There was one fatal incident in Trelawny, two recorded for St. Mary and four for Westmoreland. Five fatalities were recorded each in Clarendon and St. Catherine. Eleven fatalities were recorded in St. James and 16 recorded in the parishes of Kingston & St. Andrew.

All parishes had complaints, both fatal and non-fatal, with Kingston and St. Andrew recording the highest with 67 complaints and Portland recording the least with two.

PART TWO: THE LEGAL DEPARTMENT

In the Legal Department, 216 Commission's Reports were completed and distributed. The nature of these files included: 84 assaults, 77 fatal shootings, 15 discharge of firearms, 13 conduct unbecoming and 9 shooting injuries. An overview of recommendations for no charge, disciplinary action or charge, for the reports completed is listed in this section.

Recommendations from fatal shooting incidents, where Commission's Reports were completed during the quarter are also listed. Six members of the Jamaica Constabulary Force (JCF) were arrested and charged during the period.

PART THREE: JCF ISSUES

This is the second part of INDECOM's report on disciplinary proceedings for members of the Jamaica Constabulary Force (JCF). The first part was published in INDECOM's 2nd Quarterly Report 2017.

The lack of deployment of the body worn cameras continues to be a concern of the Commission, especially during planned police operations.

PART FOUR: PUBLIC INFORMATION

The Commission's Senior Management Team in the Operations Unit had two meetings with members of the JCF High Command to include the Inspectorate of Constabulary for the period. The matters discussed included disciplinary proceedings and sanction, end of year statistics, and Section 21 interviews.

The Commission participated in awareness exercises equaling 1226.75 man hours for the period.

The Public Relations Unit issued 10 press releases for the period. The titles of these are listed in this section.

THE DATA

In 2017 the number of Jamaican citizens shot and killed by the Security Forces amounted to 168.

Table 1: Fatal and non-fatal shooting incidents for 2015 - 2017

Shooting Incidents	2017	2016	2015
Fatal	168	111	101
Non-fatal	86	69	68
Total killed/injured	254	180	169

Table 2 shows the total number of security force fatal shootings over the past seven years, 2011 - 2017. The three year period, 2011 – 2013, recorded 687 deaths. The following three year period, 2014 - 2016, recorded 327. This represents a significant 53% reduction between the two periods.

Table 2: Total security force fatal shootings for the period 2011- 2017

The 51% increase in security force fatal shootings, (which equates to a further 57 people killed) whilst not reaching over the 200 fatalities per annum, (as witnessed in the nine years between 2005 and 2013), approached this high figure in 2017.

Such an increase was last experienced in 04/05, with a 54% increase.

Table 3 illustrates all fatal shooting incidents, by year and month, for the period 2011 to 2017 – a period of 84 months. This amounts to 1014 citizens shot and killed.

Only three months during this 84 month period (3.57%) has a monthly fatality figure ever been at five or less fatalities. The pattern of high volume fatalities (heightened or critical status) is observed primarily in 24 of the 36 month period of 2011-2013, (66%). The re-emergence of the 'heightened' or 'critical status' featured again in four months during 2017.

A PATTERN AND PRACTICE OF SHOOTING INCIDENTS

Shooting incidents by the security forces (primarily the JCF), both fatal and non-fatal, still occur on a regular and too frequent basis in Jamaica. Of the 365 days in 2017, there were 159 days (40%) when the security forces discharged their weapons, resulting in either death or injury. If 'discharge of firearm' cases were included, (incidents where no person is injured), the total days where the JCF deployed their weapons is over half the days of the year.

There were 214 fatal and non-fatal shootings from which a total of 254 citizens were either killed or injured - 168 killed and 86 injured. The 86 people shot and injured, all had the potential for being fatal incidents.

This paper provides further analysis of the fatal and non-fatal shooting incidents. The data provides an evidential basis from which comparison and commentary is made and to allow informed reflection by the Security Forces as to their operational practices. Commentary of the pattern and practice of security force shooting incidents arise from the large number of shooting incidents examined.

Certain features and data is indicative of Security Forces engaged in excessive levels of deadly force. The collected data provides information which demonstrates a pattern and practice of behaviour indicative of a disproportionate level of force being used.

The following data sets are detailed below:

1. Security forces involved
2. Fatal and non-fatal shooting incidents
3. Off duty shooting incidents
4. Multiple fatality shooting incidents
5. No gun/no weapon shooting incidents
6. Planned operations

1. Security force fatal shootings - 2017

	JCF	JDF	DCS	TOTAL
2015	98	3	0	101
2016	106	4	1	111
2017	160	7	1	168

The JCF were involved in the fatal shooting of 160 people in 2017. This is 54 more people as compared to 2016, and equates to a 51% increase. The JDF had an increase of three, whilst the Dept. of Corrections was involved in a single fatal shooting, that of an unarmed escapee. Such events are rare, but this is the second such fatal shooting incident in the last two years by the Dept. of Corrections of an unarmed escapee.

2. Fatal and Non-Fatal shooting incidents

All security force shooting incidents are self-evidently life endangering. There is an expectation that casualties arising from Security force shooting incidents, would result in more persons being wounded than killed. Where the number of civilians shot and killed is greater than those shot and injured, it is a relevant factor in measuring and assessing the use of force and determining whether there is an excessive level of deadly force.

The pattern of Security Force shooting incidents show that there are always more people killed than injured in the reported encounters. The ratio between persons killed and injured has remained relatively constant, at nearly 60/40 (3:2) - Table 4 below illustrates this pattern, whereby nearly 2/5th of total shooting victims are injured, is regularly observed in the data 2014 - 2016, and earlier.

Table 4: Total fatal and non-fatal shooting victims during the years: 2014 – 2017

Year	Total shooting victims	Shot & killed	Shot & injured
2014	195	115 (58%)	80 (41%)
2015	169	101 (59%)	68 (40%)
2016	180	111 (61%)	69 (38%)
2017	254	168 (66%)	86 (33%)

In 2017 the ratio between those killed and wounded has widened, and a ratio of nearly 2:1 has been reached.

3. Off duty shootings

Off duty shootings (fatal and non-fatal) accounted for 13% of all shootings in 2017. This is a **reduction** in off duty shootings when compared to the previous three years, 2014-2016.

In 2016, off duty police shooting incidents represented 17% of all such incidents. In 2015 this category comprised over 1/5th of all JCF shootings, at 22%. **NB.** Neither the JDF nor the Dept. of Corrections were involved in 'off duty' fatal shootings in 2017.

Table 5: Persons killed or injured by off duty officers

Year	Total off duty shootings	Off duty fatal	Off duty non-fatal
2014	28	13	15
2015	36	16	20
2016	32	10	22
2017	34	13	21

Despite the reduction in the number of 'off duty' shootings, the nature of such shooting incidents remain indicative of a poor standard of gun control and discipline. These incidents involved five accidental discharges by police officers, (all of whom were wounded), the shooting injury of three children, and several people, all of whom were self-evidently unarmed.

Nineteen of the 34 'off duty' shootings, (56%) involved persons who were completely unarmed. Seven of which were killed, seven injured and five were victims of accidental discharges.

A **reduction** has also been observed in officers being implicated in off duty murders. In 2015, six fatal shootings were committed by 'off duty' officers, four of whom were charged with murder. In 2016 four off duty fatal shootings resulted in murder charges. A fifth person was killed at a private police party, in which a man was killed when a 'gun salute' occurred.

In 2017 only one police officer was charged with murder whilst engaged off duty with other persons.

4. Multiple fatality shooting incidents

A feature of security force shootings, which is potentially demonstrative of a pattern and practice of excessive force, is where multiple fatalities occur from a single incident. This continues to give cause for concern as to planning and proportionality of the policing response.

Multiple fatality incidents was a feature frequently observed in years pre 2014. In the six month period, July - December 2013, there were 15 multiple death incidents recorded, and previous years experienced numerous such incidents, involving triple, quadruple,

and as high as six fatalities in a single event, a re-occurrence which was repeated in 2017.

The downturn of such incidents contributed to the overall reduction in police shootings, post 2013. However, 2017 has seen a return to a near doubling of the 'multiple fatality' incident over 2016 and hence the rise in police related deaths.

Table 6: Multiple deaths occurring from single incident shootings

Year	2 fatalities	3 fatalities	4 fatalities	6 fatalities
2014	x 11	x 1	-	-
2015	x 5	-	-	-
2016	x 8	x 1	x 1	-
2017	x 17	x 1	-	x 1 (JDF)

Forty-three people were shot and killed from 19 shooting incidents. The 19 shooting incidents comprise only 13% of 144 fatal shooting incidents, yet 25.5% of the 168 people killed in 2017. In 2016, 10 multiple death incidents accounted for 23 fatal shootings.

A doubling of the multiple fatality shooting incidents requires continuing analysis in assessing the proportionality and necessity of the level of force exercised. From the 19 incidents a total of 29 guns were recovered from 43 dead men. Thus fourteen men were unarmed at the time of their death and could not have been shooting at the police.

It is reported that such multiple fatality incidents frequently arise from 'ambush' or 'shoot out' scenarios, and from which multiple rounds are fired at Security forces. Scene investigation analysis found that over 650 rounds were reportedly fired by the Security forces, but a disproportionately limited number of casings were recovered from the alleged gunmen's firearms. The number of 'gunmen' rounds allegedly fired is incongruent with spent casings found at the scenes.

Examples which illustrate the observations are listed below:

- 16 rounds fired by security forces (SF) – a civilian killed in cross fire in his home.

- 102 rounds fired by SF - 4 casings found from alleged gunmen's weapons. Six dead, four firearms recovered.
- 26 rounds fired by SF - 1 discharged shotgun casing found. Two dead. One firearm recovered.
- 50+ rounds fired by SF - no casings from alleged gunmen's weapon. Two dead. One firearm recovered.
- 11 rounds fired by SF - 1 casing found from alleged gunman's weapon. Two dead. One firearm recovered.
- 28 rounds fired by SF. A civilian killed in cross fire. No weapons recovered.
- 143 rounds fired by SF - Two dead.
- 171 rounds fired by SF - Two dead, one weapon recovered. 67 rounds of 9mm fired by SF, only two 9mm casings recovered.
- 13 rounds fired by SF - three dead. Two weapons recovered. No casings from alleged gunmen's weapon.

5. No gun/no weapon shooting incidents

Where a shooting incident results in a death or injury, such persons are, in the majority of cases, reported as having either a firearm, a weapon other than a firearm, or suspected of having a firearm or other weapon at the time of the incident. As identified in section 4 above (multiple fatality shooting incidents), a discernable pattern of security force shootings is the marked absence of recovered firearms in shooting incidents - particularly non-fatal shooting incidents.

INDECOM reported, in both its, 1st and 3rd Quarterly Reports of 2017, *Privacy and Policing and Detention respectively*, on the issue of shooting incidents in which a significant proportion of persons shot or injured were either completely unarmed, or in possession of an implement other than a firearm. Detailed analysis was provided on the type and nature of such shooting incidents and sought to identify critical learning issues which had potential to reduce such instances.

Further analysis has now been completed of the 2016 and 2017 fatal and non-fatal shooting cases, regarding this issue.

2016

- in 2016, of the 111 persons killed, twenty-seven had **no weapon** (24%)
- in 2016, of the 69 persons injured, thirty-six had **no weapon** (52%)
- in 2016, 87 persons shot and killed/injured had **no firearm** (48%)

2017

- in 2017, of 168 persons killed twenty-five had **no weapon** (14%)
- in 2017, of the 86 persons injured, forty-five had **no weapon** (52%)
- in 2017, 107 persons shot and killed/injured had **no firearm** (42%)

2016 & 2017

- In the two year period, over half of the 155 persons shot and injured, (eighty-one people) **did not have any weapon** at all - 52%
- In the two year period, 194 persons shot, and either killed or injured, were **not in possession of a firearm** - 44%.

These findings reveal a pattern and practice which is indicative of a disproportionate use of force against citizens who are unarmed. It is recognized that within this large number of shooting instances, where a firearm is absent, that in certain cases the weapon may have been taken by another person, have been discarded before arrest, or, in multiple death cases, it is not possible for officers to determine which individual is firing at them, when they return fire in the direction of several gunmen – some of whom may be unarmed.

Nor is it suggested that all cases fall within the ambit culpability. However, the totality of the cases require the JCF to examine their tactics and fire discipline to address the issue.

Further examples within this category are female shooting victims. This subset provides further illustration of an apparent excessive use of force, see Table 7.

Table 7: *Females killed or wounded in 2016 & 2017*

Year	Fatal	Non-fatal
2016	1	7
2017	-	9
Total	1	16

None of the 17 females (aged between 13 - 61yrs) were in possession of any firearm or other weapon at the time of their being shot.

- Eight females were shot in cross fire, during police shooting incidents.
- Eight were shot in the erroneous belief they were armed or presented a threat. None of them did.
- One was subject to an accidental discharge in the work place, by a colleague.
- Two of the incidents involved off duty officers.

6. Planned Operations

Planned police operations, where fatalities occur, have previously been a significant contributor to the total fatalities per annum by the JCF. The introduction of the 'post event' questionnaire/evaluation for police Commanders, to examine and assess the level of planning in such operations, has been implemented since 2015.

There has been a continued (albeit small), **reduction** in the number of police related fatalities arising from planned police operations. Oversight has contributed to a greater care and compliance of the JCF's own Use of Force policy and INDECOM's

monitoring of the issues, have effected some changes.

Full year analysis - Annual periods 2014 - 2017

Analysis of the four year period 2014 - 2017 shows the continued reduction in deaths arising from planned police operations. Until 2015 police fatal shootings arising from such operations accounted, annually, for between 33%-37% of all fatalities. This reduced in 2016 and in 2017 to a quarter.

Table 8: *Fatalities arising from planned police operations in period 2014 – 2017*

Year	Total Fatal shootings	Planned Op where fatality occurred	Total killed during Planned Ops	% of total shootings
2014	115	36	38	33.04%
2015	101	33	38	37.62%
2016	111	21	28	25.22%
2017	168	30	41	24.40%

The continued reduction in this area of policing operations is welcomed and acknowledged. INDECOM will continue to examine this aspect of JCF operations and utilise the post operation Command evaluation questionnaire to ensure continuing compliance with the JCF's own Use of Force policy and seeking to ensure such operations result in arrest, not fatalities.

October 2017 (30)

Table 11: Recommendations by the Legal Department for Commission's Reports completed in October 2017 on fatal shooting incidents

No.	Complainant/Victim	Case Summary	Recommendation
1.	Karim Clarke	On June 22, 2015, shortly after midday, Karim Clarke o/c 'Froggy Bull' was fatally shot by the concerned officers at Fernando Road, Southborough, Portmore in St. Catherine. It is reported that the concerned officers, accompanied by others, were on mobile patrol duty in the Port Henderson area when they received information about a man who was misbehaving in the Southborough area. The concerned officers went to the reported location, knocked on the front door which was partly open, and identified themselves as police officers. The police saw a man inside the house who fit the description they were given. The said man ran from the house through the back door and the police pursued him. The police accosted the said man at the rear of the premises and he turned around with a gun in his hand and opened fire at the police. The police returned fire at the man, hitting him, and he fell to the ground with the firearm beside him. The police retrieved the firearm and subsequently transported the injured man to the Spanish Town Hospital where he was pronounced dead on arrival.	The Commission respectfully recommends that no criminal charges be laid or disciplinary action be taken against the concerned officers; in relation to the fatal shooting of Karim Clarke.
2.	Lushane Jones	Allegations are that at about 8:00 p.m. on Thursday, the 17th day of September, 2015, the deceased, Lushane Jones was shot and killed whilst in the vicinity of Rushaun Close of the Glenmuir Housing Scheme in Clarendon.	The Commission hereby recommends that no criminal charges be laid or disciplinary action be taken in respect of the fatal shooting of Lushane Jones on September 17, 2015.
3.	Omar Mahoney and Andre Sutherland	Allegations are that at about 3:35 p.m. on Friday, the 14th day of September, 2012, the deceased, Omar Mahoney and Andre Sutherland, were shot and killed whilst in the vicinity of Venus Close, Portmore Lane in Portmore, Saint Catherine. The deaths of the deceased were occasioned during an alleged exchange of gunfire with the concerned officers.	The Commission hereby recommends that no criminal charges be laid or disciplinary action be taken in respect of the fatal shootings of Omar Mahoney and Andre Sutherland on September 14, 2012.
4.	Yacka McLeod	On May 27, 2016, at about midday, Yacka McLeod – inmate at the St. Catherine Adult Correctional Centre (SCACC) – was fatally shot, after the said McLeod attacked the Officer inside his sentry tower and attempted to escape from the prison by climbing the prison's perimeter fence and jumping from the said sentry tower over to an abandoned sentry tower. The concerned officer fired rounds from his service rifle at the said McLeod, hitting him, and McLeod fell from the sentry tower. 77.	Sadeak Tulloch and Omar Ricketts	On May 5, 2012, at about 5:00 a.m., Sadeak Tulloch and Omar Ricketts were fatally shot by police officers from the St. Catherine South Police Division at Guinep Ridge, Bartons district in St. Catherine, during an operation to search for wanted men and illegal guns. On the morning in question, the concerned officers arrived at the target location, knocked on the door to one of the buildings in the yard and identified themselves as police officers. Suddenly, three men ran from the building and opened fire at the police. The concerned officers returned fire at the gunmen and, after the shooting subsided, two of the gunmen men were found bleeding from gunshot wounds and were rushed to the Spanish Town Hospital where they were pronounced dead.	The Commission respectfully recommends that no criminal charges be laid or disciplinary action be taken in relation to the fatal shootings of Sadeak Tulloch and Omar Ricketts.

PART THREE

DISCIPLINARY PROCEEDINGS REVIEW: GAZETTED OFFICERS

This is the second part of INDECOM's reporting on the review of disciplinary proceedings for members of the Jamaica Constabulary Force (JCF). The review is being conducted pursuant to s. 4 (1) (b)(ii) of the *Independent Commission of Investigations Act*. The first part was published in INDECOM's 2nd Quarterly Report 2017. It was highlighted that no proceedings have been instituted against any of the twenty (20) senior JCF officers that INDECOM submitted to the Police Services Commission (PSC) and the Commissioner of Police concerning alleged disciplinary breaches.

A. No action on INDECOM reports

The earliest case was submitted in 2013. It is the only one for which we have had some response. The PSC wrote to INDECOM on the 3rd September, 2015 and informed that the Commissioner of Police:

"...has been asked to conduct an investigation into the circumstances outlined in the abovementioned case and findings sent to PSC Chairman at the earliest possible date. A further communication will be addressed to you as soon as the findings of the investigation have been received from the Commissioner."

Thus a report of misconduct, following a full INDECOM investigation and the details of which were reported to the PSC, was sent for a further JCF investigation. There has been no further update on that JCF investigation in the ensuing two and a half years.

On the 13th June, 2017, INDECOM wrote to the PSC, requesting an overview of their disciplinary procedures as well as statistics and summaries of outcomes of Courts of Enquiry. The PSC was further asked to provide an update on the cases submitted by INDECOM for such proceedings. A timely response was not forthcoming.

On the 14th August, 2017, INDECOM sent the PSC an advance copy of the first part of the 2nd Quarterly

Report 2017 for the PSC's comments. The PSC made comments by way of letter dated 7th September, 2017. One comment was that the PSC does not conduct investigations and that it takes into consideration reports from the Commissioner of Police. A summary of its disciplinary procedures was also provided. No further query was answered. No statistics or summaries were provided. There was no update on the cases referred to the PSC by INDECOM.

On the 4th October, 2017, INDECOM wrote to the PSC asking if it has interpreted the *Police Services Regulations* to mean that the PSC can only act on the investigations of the Commissioner of Police. INDECOM also queried the PSC's treatment of tardiness on the part of the Commissioner of Police in making reports to the PSC. The PSC responded on 31st October, 2017 and indicated that the question as to the PSC's interpretation of the *Regulations* was referred to the Attorney General for an opinion.

The final correspondence is dated 9th January, 2018, INDECOM pointed out the unanswered queries from the initial letter and asked the PSC to say whether the initiation of disciplinary proceedings were awaiting the Commissioner of Police's report and, if so, how the PSC intends to deal with the protracted delay. The PSC was also asked to comment as to whether the deficiencies in the disciplinary proceedings for senior officers noted in the 2008, *Ministry of National Security A New Era in Policing in Jamaica: Transforming the JCF (The Strategic Review)*, to be dealt with in more detail below, still persist.

Despite the absence of a comprehensive response, it may be divined that the PSC considers itself unable to initiate disciplinary proceedings unless, and until, the Commissioner of Police submits a report. It seems that the Commissioner of Police's action is the *sine qua non* in all disciplinary proceedings as he may, by mere inaction, prevent any disciplinary proceedings that he does not favour from going ahead. The independent authority of the PSC is rendered illusory.

The treatment of the recommendations emanating from the West Kingston Commission of Enquiry (WKCOE) report may further illustrate. The WKCOE was appointed by the Governor General to, among other things, investigate and report on any misconduct of JCF officers during the 2010 Tivoli Operation. Public hearings were held and a report issued outlining a case that named JCF members had misconducted themselves. Many of these JCF members were Gazetted Officers thus their disciplinary proceedings fell to be conducted at instance of the PSC. The WKCOE Report was issued in June 2016, and the next pertinent announcement was the JCF's Administrative Review that was announced in August 2017. In the interim, some of the named JCF members were promoted. The announcement was that the Commissioner of Police had commissioned an internal review of the WKCOE report and that the internal review disagreed with the WKCOE's crucial findings.

On 1st September, 2017, INDECOM wrote to the PSC pointing out the failings of the JCF's internal review, and asked that the PSC initiate disciplinary proceedings. No response has yet been forthcoming.

B. Strategic Review of the JCF

The Strategic Review found that the JCF was suffering from many deleterious cultures. These included corrupt, oppressive and criminal conducts that had become endemic. Corrupt behaviour was accepted by other JCF members through misguided loyalty as team members, and persons who were trained together, felt bound to assist a colleague even where doing so would violate legal and ethical standards. The authors called for strengthening of the accountability framework and the coordinated efforts of the JCF, the Ministry of National Security (MNS) and oversight agencies towards reform¹.

The Strategic Review panel found that disciplinary proceedings were "ineffective and often circumvented" and that the internal accountability framework was weak. These weaknesses were not for lack of regulations but from poor management and enforcement. The Strategic Review panel was seriously concerned about the PSC's report that

despite the "hundreds of cases of police breaches over the last four years, only four files have been received from the Commissioner of Police".

It was felt that the PSC's impact on discipline and accountability was "less than expected given its powers...due to lack of adherence to operational procedures and cooperation on the part of the JCF"². The most significant part of the report may be found at paragraph 6.2.2.1:

"The PSC is reliant on recommendations from the Commissioner to implement action in respect of promotions, discipline and training. Consequently, the Commissioner of Police plays a key role in the effectiveness of the PSC. Latterly, this relationship has been inconsistent with referrals taking some time to reach the commission, if at all. This is most clearly illustrated in the areas of discipline: the PSC reports that there have been many instances where promotions have been granted by the JCF despite blemished records and outstanding disciplinary rulings. In addition, despite the assembly of evidence against a number of JCF staff, the Commissioner has not submitted disciplinary files to the PSC."

If anything has changed this is not apparent.

C. Waiting on the Commissioner of Police's report

The Police Service Regulations, sections 31(1) – (3), 46(1), and 47(2) (a) –(c) states:

"31.—(1) The Commission in dealing with disciplinary proceedings against members shall take into consideration reports from the Commissioner.

(2) Subject to paragraph (5) where the Commission is of opinion that disciplinary proceedings ought to be instituted against a member of or above the rank of Inspector, the Commission may recommend to the Governor-General that such proceedings be instituted.

(3) Disciplinary proceedings against members below the rank of Inspector shall be instituted by or by direction of the

¹ Chapters 4 and 5

² Chapter 6

Commissioner in the light of reports made to him, or otherwise.

...

41.—(1) Subject to the provisions of this regulation an increment shall not be suspended, deferred or withheld from any member except by the Governor-General acting upon the recommendation of the Commission.

...

47.—(2) The following procedure shall apply to an investigation with a view to the dismissal of a member—

(a) the Commission or, in relation to a member below the rank of Inspector, the Commissioner (after consultation with the Attorney-General if necessary) shall cause the member concerned to be notified in writing of the charges and to be called upon to state in writing before a specified day (which day shall allow a reasonable interval for the purpose) any grounds upon which he relies to exculpate himself;

(b) if the member (being of or over the rank of Inspector) does not furnish such a statement within the time so specified or he fails to exculpate himself the Governor-General shall on the recommendation of the Commission appoint a court of enquiry consisting of one or more persons (who may include the Commissioner, or other Officer) to enquire into the matter; the members of the court shall be selected with due regard to the rank of the member concerned, and to the nature of the charges made against him;

(c) if a member below the rank of Inspector does not duly furnish such a statement as aforesaid or if he fails to exculpate himself the Commissioner shall appoint a court of enquiry (constituted as under sub-paragraph (b) to enquire into the matter."

From the above, disciplinary proceedings against senior members of the JCF must include considering a report from the Commissioner of Police. However, it is respectfully submitted that nothing in the Regulations require that the representation pursuant to regulation 46 must come from the Commissioner

of Police, or that the investigation must be conducted by the JCF. Indeed, regulation 47 (2) (f) refers to a person or authority preferring the charge having a right to counsel.

It would seem that the proper order of the procedural steps to commence a disciplinary hearing are:

1. Any person or authority makes representation to the PSC.
2. Where person or authority making representation was not COP, PSC asks COP for a report.
3. PSC recommends to Governor General that disciplinary proceedings ought to be instituted.
4. PSC determines whether or not alleged misconduct warrants regulation 47 proceedings.

It is unacceptable for an allegation of misconduct to be stalled at the second step. Consider regulation 10:

"10. Any public officer who without reasonable cause fails to appear before the Commission when required to do so, or who fails to comply with any request properly made by the Commission, shall be guilty of a breach of discipline and the Commission may, where appropriate, recommend that disciplinary proceedings be instituted against him."

D. Recommendations

It is humbly recommended that:

1. The PSC treats the Commissioner of Police's delays in submitting reports as a serious breach of discipline.
2. Parliament reforms the PSC Regulations to:
 - a. facilitate access of all persons or authorities to make representations to the PSC of alleged misconduct; such reports may then be referred to INDECOM or JCF for investigation, where necessary;
 - b. require the PSC to regularly update the persons or authorities who make representations, as well as the alleged victims of the misconduct, as to the progress of the matter;

- c. impose timelines for procedural steps with sanctions for contumacious parties;
- d. cause proceedings to be conducted without a report by the Commissioner of Police, or an investigation by the JCF; and
- e. establish a unit of the PSC staffed with qualified and independent professionals

to adjudicate in disciplinary matters, prepare and present cases, and to generally advise the PSC on disciplinary matters³.

BODY WORN CAMERAS

Body Worn Cameras (BWCs) are an important tactic for a police service in allaying community concerns and addressing alleged security services breaches of the right to life incidents and use of force abuses. Their value is recognised by the JCF in their recently published (9 Nov 2017) Policy and Procedure document.

BWC's were delivered in 2016 to four central locations within the Kingston region, one of which was the Motorised Division. However, their deployment remains a tactical option which appears absent from the policing domain. Enquiry of the JCF indicates they have not received any self-reporting of a recorded incident which required any further action. Equally INDECOM has not received single report of any policing incident in which the use of a BWC revealed any infraction, either towards or by a police officer. This is a remarkable feature in a policing environment which reports daily on a multitude of events and shooting events and includes over 250 assault allegations made against the JCF in 2017.

Of the 30 planned police operations which resulted in 41 deaths in 2017, no BWC's were deployed. Of the 16 deaths which arose from planned, stationary vehicle check points, no BWC's were deployed. A number of these shootings, resulted in significant community concerns and witness accounts differed greatly from that of the JCF. BWC's would begin to address such suspicions and create an operating environment which begins to restore trust in the JCF.

INDECOM urges the JCF senior command to reassess the strategy of non-deployment in planned policing events. Their absence from such operations will be subject of further enquiry and the current Command questionnaire will seek to establish why such a valuable evidence gathering tool was not utilised.
